CAMPUS SEXUAL ASSAULT POLICY

STANDARD OF CONDUCT

Georgia Career Institute has a vital interest in maintaining a safe, healthful, and efficient environment for its students and employees. The Institute will strive to provide and maintain an environment free of sexual assault, including rape, acquaintance rape, domestic violence, dating violence, stalking, nonconsenting and other sexual offenses forcible and non- forcible. To accomplish this objective, the Institute has implemented and will maintain a Campus Sexual Assault Program. Violation of these standards can result in disciplinary action, up to and including termination of an employee or dismissal of a student, even for a first offense.

Sexual assault is an act in which one intentionally sexually touches another person without that person's consent or coerces or physically forces a person to engage in a sexual act against their will.

Domestic violence is violence or other abuse that occurs in a domestic setting, such as in a marriage or cohabitation.

Dating violence is the perpetration or threat of an act of violence by at least one member of an unmarried couple on the other member in the context of dating or courtship.

Stalking is unwanted and/or repeated surveillance by an individual or group toward another person. Stalking behaviors are interrelated to harassment and intimidation and may include following the victim in person or monitoring them.

Consent occurs when one person voluntarily agrees to the proposal or desires of another. It is a term of common speech, with specific definitions as used in such fields as the law, medicine, research, and sexual relationships. Consent as understood in specific contexts may differ from its everyday meaning.

PROCEDURES FOR ON CAMPUS DISCIPLINARY ACTION

When an employee or student is involved in a case of alleged sexual assault, the incident should be reported immediately to the office of the Director. All information will be documented and kept strictly confidential. The accuser and the accused are entitled to the same opportunity to have others present during the disciplinary proceeding. Both the accuser and the accused shall be informed of the outcome of any institutional disciplinary proceeding brought alleging a sex offense (the outcome of a disciplinary proceeding means on the institution's final determination in with respect to the alleged sex offense and any sanction that is imposed against the accused). In addition, the institution will change the victim's academic situation after an alleged sexual offense is requested by the victim and is reasonably available.

The accuser should be informed of the option to notify proper law enforcement authorities, and the option to be assisted by campus authorities in notifying these authorities. Victims of sexual assault may suffer feelings of embarrassment, shame, or fear; however, it is only the immediate reporting of such crimes that enables prosecution to occur. Additionally, it is extremely important to preserve evidence for the proof of criminal offense.

The accuser should be notified of existing counseling, mental health, or student services for victims of sexual assault. (Below is a list of telephone numbers of related agencies.)

DRUG FREE CAMPUS POLICY

Georgia Career Institute is dedicated to providing quality education services to its students and a quality work environment for its employees. In keeping with this commitment, Georgia Career Institute will strive to maintain a workplace free from drug and alcohol abuse.

Pursuant to Public Law 101-226, the Drug Free Schools and Communities Act of 1989, the Institute has implemented a Drug Prevention Program. It is the policy of the Institute to provide all employees and students, at the time of employment or enrollment, and through an annual distribution with drug prevention information regarding standards of conduct, state sanctions, health risks, and treatment centers.

The manufacturing, possession, distribution, or use of illegal drugs or alcohol is prohibited in the workplace, including school grounds. Any violations of this policy will warrant disciplinary actions, up to and including termination, and may also result in local, state, and/or federal criminal charges.

Employees are to notify management of the school of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) days after such conviction. The employer will notify the United States Department of Education, Office of Student Financial Assistance, 400 Maryland Ave., SW, (ROB-3), Washington, DC 20202, of such conviction with ten days after receiving notice.

The school will assist employees and students in the selection of appropriate counseling, substance abuse assistance or rehabilitation programs. In addition, this school will not discriminate in employment solely on the grounds of prior drug or alcohol abuse or against individuals who have satisfactorily completed a rehabilitation program.

To ensure safety, security, and productivity, employees are to conduct business with the highest ethical standard and treat all students, co-workers, and business associates with fairness and integrity.

DRUG FREE POLICY STATEMENT

The purpose of this statement is to provide each member of the Georgia Career Institute community (Faculty, Staff and Students) with official notification of the policies and penalties relative to controlled substances (illicit drugs) and alcohol, as required by the Drug Free Workplace Act of 1988 and the Drug Free Schools and Communities Act Amendments of 1989. As an employee and/or student at Georgia Career Institute, you are required to be knowledgeable of and comply with the Drug Free Campus/Workplace Policy, the applicable provisions of which are summarized below.

POLICY

It is the policy of this institution that the unlawful manufacture, distribution, possession, use or abuse of alcohol and/or illicit drugs on any of Georgia Career Institute's campuses or on property owned or controlled by the Institute is strictly prohibited. All categories of employees and students are subject to this policy and to applicable federal, state and local laws related to this matter. Additionally, any violation of this policy will result in disciplinary actions as set forth in the applicable sections of this policy.

STANDARDS OF CONDUCT

Georgia Career Institute employees and students are prohibited from engaging in the unlawful manufacture, distribution, dispensation, possession, use or being under the influence of illegal drugs or alcohol on any Institute campus, and at off-campus facilities owned or controlled by the Institute. At off-campus events, to the extent that off-campus activities are considered to be Institute activities, the standards of conduct (of the

act) must apply, and alcohol shall not be abused by those of legal drinking age, nor used, possessed or distributed by those who have not attained legal drinking age.

LEGAL SANCTIONS

Various federal, state and local statutes make it unlawful to manufacture, distribute, dispense, deliver, sell or possess with intent to manufacture, distribute dispense, deliver or sell, controlled substances. The penalty imposed depends upon many factors which include the type and amount of controlled substance involved; the number of prior offenses, if any; whether death or serious bodily injury resulted from the use of such substance; and whether any other crimes were committed in connection with the use of the controlled substance. Possible maximum penalties for a first-time violation include imprisonment for any period of time up to a term of life imprisonment; a fine of up to \$4,000,000; supervised release; any combination of the above or all three. These sanctions are doubled when the offense involves either:

- 1) distribution or possession at or near a school or Institute campus, or
- 2) distribution to persons under 21 years of age. Repeat offenders may be punished to a greater extent as provided by statute.

Further, a civil penalty of up to \$10,000 may be assessed for simple possession of "personal use amounts" of certain specified substances under federal law. Under state law, the offense of possession or casual exchange is punishable as a Class A misdemeanor; if there is an exchange between a minor and an adult at least two years the minor's senior, and the adult knew that the person was a minor, the offense is classified a felony as provided in T.C.A. S39-17-417. It is unlawful for any person under the age of twenty-one (21) to buy, possess, transport (unless in the course of his/her employment), or consume alcoholic beverages, wine, or beer, such offenses being classified Class A misdemeanors punishable by imprisonment for not more than 11 months, 29 days, or a fine of not more than \$2,500, or both (T.C.A. SS1-3-113, 57-5-301). It is further an offense to provide alcoholic beverages to any person under the age of twenty-one (21), such offense being classified a Class A misdemeanor (T.C.A. S39-15 -404). The offense of public intoxication is a Class C misdemeanor punishable by imprisonment of not more than 30 days or a fine of not more than \$50, or both (T.C.A. S39-17-310).

HEALTH RISKS

Health risks associated with drug/alcohol use

Every drug, including alcohol, is a potential poison which may cause disability and death if it is taken incorrectly into the body, consumed in wrong amounts or mixed indiscriminately with other drugs. Drugs cause physical and emotional dependence. Drugs and their harmful side effects can remain in the body long after use has stopped. The extent to which a drug is retained in the body depends on the drug's chemical composition that is whether or not it is fat-soluble. Fat-soluble drugs such as marijuana, phencyclidine (PCP), and lysergic acid diethylamide (LSD) seek out and settle in the fatty tissues. As a result, they build up in the fatty parts of the body such as the brain and reproductive system. Such accumulations of drugs and their slow release over time may cause delayed effects weeks, months and even years after drug use has stopped. There are many health risks associated with the use of illicit drugs and the abuse of alcohol including organic damage; impairment of brain activity, digestion, and blood circulation; impairment of physiological processes and mental functioning; and, physical and psychological dependence. Such use during pregnancy may cause spontaneous abortion, various birth defects or fetal alcohol syndrome. Additionally, the illicit use of drugs increases the risk of contracting hepatitis, AIDS and other infections. If used excessively, the use of alcohol or drugs singly or in certain combinations may cause death.

COUNSELING/TREATMENT SERVICES

Student Services provides information to students and employees on drug and alcohol related problems. Referral services are also provided for professional counseling, treatment and rehabilitation programs that are available on campus and in the local community.

SANCTIONS

Georgia Career Institute will impose appropriate sanction(s) on any employee or student who fails to comply with the terms of this policy.

- A. Employees: As a condition of employment, each employee, including student employees, must abide by the terms of this policy, and must notify their department head/supervisor of any criminal drug statute conviction for a violation occurring in the workplace no later than five days after such conviction. A conviction includes a finding of guilt, a plea of *nolo contendere*, or imposition of a sentence by any state or federal judicial body. Possible disciplinary sanctions for failure to comply with this policy, including failure to notify of conviction, may include one or more of the following:
